

AIR FORCE SCHOOL JAMNAGAR

THE BLUE HORIZON

THEME OF THE MONTH

GOOD MANNERS & ETIQUETTES

Welcome to April & May - a special time for learning, growth, and looking towards the future!

Colour of the Month: BLUE
This month we will celebrate kindness, respect, and good habits that make us better citizens.

Remember: Good manners start at home and continue throughout our lives!

REMINDERS

For Balvatika I to Class 5:

- Practice saying "Please" and "Thank You"
- Use good posture when sitting

Learning, growth and looking towards the future.

FROM THE PRINCIPAL'S DESK

Dear Parents,

A new academic session brings with it

new beginnings, fresh hopes and countless opportunities for our children to learn, explore and grow.

At Air Force School Jamnagar, we believe that the early years of education lay the foundation

for a child's confidence, curiosity and love for learning. Our endeavour is to create an environment where every child feels safe, valued and encouraged to express themselves.

The month of April marked the beginning of a new journey for our young learners. From settling into new classrooms and exploring their surroundings to participating in creative activities, celebrations, sports and awareness programmes, our children embraced every experience with enthusiasm.

Through this newsletter, we are delighted to share a glimpse of the learning experiences and joyful moments that made the beginning of the academic session special.

We look forward to working together with our parents to nurture happy, confident and responsible young learners.

Regards,

Mr Umeshchandra Pandit

Principal

Learning, growth and looking towards the future.

FROM THE HEADMISTRESS'S DESK

Dear Parents,

April marked a beautiful beginning to another year of learning, discovery and growth at Air Force School Jamnagar. The first month of school is always special.

It is a time when children meet new teachers, make new friends, discover new spaces and gradually find their rhythm in a new academic environment.

Our young learners participated enthusiastically in a wide range of experiences during the month — from creative activities and sports to safety drills, environmental initiatives, celebrations and interactive learning experiences. These activities provided opportunities for children to develop not only academic skills but also confidence, independence, creativity, cooperation and social awareness.

Our Balvatika I– Class V learners particularly enjoyed hands-on experiences such as vegetable printing, paper activities, jumping games, colouring and Blue Day celebrations.

This newsletter is a small reflection of those wonderful moments. We hope it gives parents a glimpse into the vibrant learning experiences that take place within our school.

Regards,

Ms Paras Rathod
Headmistress

Learning, growth and looking towards the future.

Orientation

Orientation programmes were organised for Balvatika I, Balvatika II, Balvatika III and Class 1 to introduce parents to the school system, routines, rules and expectations. The sessions helped strengthen the connection between school and parents and ensured that families began the new academic session with clarity and confidence.

Guest Parent Lecture

Guest Parent Lectures provide students with valuable real-life learning experiences by exposing them to different professions, skills, and perspectives.

1. A Guest Parent Lecture on "Water Borne Diseases" was conducted by Ms Darshana Vasa, M/O, Miss Jiya Vasa Class 2D.
2. A Guest Parent Lecture on Health was conducted by Ms. Dhruvi Mahival, mother of Master Jiyan Prajapati, Class Balvatika III B.

Learning, growth and looking towards the future.

DISASTER MANAGEMENT

FIRE SAFETY DRILL

EARTHQUAKE MOCK DRILL

TERRORIST ATTACK DRILL

SAFE, AWARE & PREPARED

Safety education is an important part of creating a secure learning environment.

During April, students participated in age-appropriate safety drills and awareness activities.

1. Fire Safety Drill

2. Earthquake Mock Drill

3. Terrorist attack drill

Learning, growth and looking towards the future.

FIELD TRIP

Our young learners explored important areas of the school during a field visit within the school premises.

The activity helped children become familiar with their surroundings and feel more comfortable and secure in their new environment.

CLUB ACTIVITIES

Grooming Club Activity

Students were guided on covering their textbooks and notebooks neatly.

The activity promoted:

- Organisation
- Responsibility
- Neatness
- Care for Personal Belongings

Learning, growth and looking towards the future.

Environment Club –

Cleanliness Drive

The Environment Club organised a cleanliness drive within the school premises.

Students participated actively and learnt the importance of maintaining cleanliness and hygiene.

Drama Club – Dumb

Charades

Dumb Charades was a fun-filled activity that brought laughter and excitement. Participants acted out movie titles while their teams tried to guess them within the given time.

★ **LEADERSHIP BEGINS WITH PARTICIPATION**

The Student Council selection process encouraged students to participate actively and helped identify responsible student leaders. The process provided children with an opportunity to understand participation, responsibility and leadership.

Demo Video Shoot

Students participated confidently in a demo video shoot showcasing school activities and the vibrant learning environment.

Learning, growth and looking towards the future.

ACTIVITIES DURING THE MONTH

NOTE FROM HM

Various hands on activity and external activities are conducted in the school to enhance the Social, Emotional, Gross Motor skill and Holistic Development of the students.

Paper Crumpling & Tear and Paste

Children participated in paper crumpling and tear-and-paste activities. These experiences helped strengthen grip, improve hand-eye coordination and develop fine motor skills while allowing children to express their creativity.

Little Hands, Big Ideas!

Vegetable Printing

Our young learners explored colours, shapes and patterns through vegetable printing. The activity encouraged creativity while developing observation skills and artistic expression.

Learning, growth and looking towards the future.

SCREEN TIME - USE IT WISELY

Stars Screens are a wonderful part of our lives. We use phones, tablets, computers and televisions to learn, play and stay connected. But too much screen time can make our eyes tired and take away time from the things that make us truly happy.

Sometimes, we become so busy watching videos or playing games that we forget to talk to our parents, play with our friends or enjoy the fresh air outside. A screen can entertain us, but it can never replace a warm hug from our parents, a laugh with our friends or the joy of playing outdoors.

Let us make a healthy choice. We can use screens for learning and fun, but we should also take breaks, read books, play outside, talk to our family and get enough sleep.

Remember: We should control our screens, not let our screens control us.

Regards

Ms Darshana Vasa

TGT Computer

Learning, growth and looking towards the future.

COMPETITION

Colouring

Competition

The Colouring Competition provided children with an opportunity to express themselves through colours while developing focus, creativity and colouring skills.

and

Poster Making Competition

Students of Classes 3–5 participated in a poster-making competition on Food Safety and Food-Borne Diseases.

The activity combined creativity with awareness about healthy practices.

Learning, growth and looking towards the future.

English Calligraphy Competition

Students showcased their handwriting skills and creativity through English calligraphy.

CELEBRATIONS

BLUE DAY

Blue Day was celebrated with great excitement and enthusiasm.

Students came dressed in blue and participated in activities connected with the colour theme. The celebration made colour learning joyful and interactive.

Learning, growth and looking towards the future.

🌸 BUDDHA PURNIMA CELEBRATION

Buddha Purnima was observed with a focus on values such as:

- Peace
- Compassion
- Non-Violence

The celebration helped children develop moral and cultural awareness.

JAL PAKHWADA

💧 EVERY DROP COUNTS Jal Shakti Abhiyan

Students participated in activities under the Jal Shakti Abhiyan, including:

- 💧 Jal Shapath
- 🎨 Poster Making
- 🎤 Guest Parent Lecture
- 🧠 Quiz

The activities created awareness about water conservation and the importance of using water responsibly.

Learning, growth and looking towards the future.

CHAMPIONS IN ACTION

Physical activity plays an important role in the overall development of children.

Jumping Game

Our young learners participated enthusiastically in jumping activities designed to improve:

- Balance
- Coordination
- Motor Skills
- Physical Confidence

The activity was energetic, engaging and thoroughly enjoyed by the students.

Dodgeball Competition

Primary students participated in dodgeball selections and subsequent rounds of competition. Students participated enthusiastically and demonstrated excellent team spirit.

Learning, growth and looking towards the future.

A craft show was organised for students, conducted by resource person Mr. Raj from Jaipur. He demonstrated creative items made using craft paper and introduced a craft book. The session was informative and inspired students to explore creativity.
